- Fill in the opinion diagram to show how the writer organized her argument.

Our Most Important Meal

For students who want to do good in school, breakfast is the most important meal of the day. When you skip breakfast, you are like a car trying to run without fuel. Experts say that a nutritious breakfast is the brain's fuel. A brain that is fully fueled concentrates better and solves problems faster. Some students say that getting an extra few minutes of sleep is more important than eating a bowl of oatmeal, but they're wrong. Of course, sleeping is important, but going to bed a half-hour earlier would be better than sleeping late and skipping breakfast. Give your brain the fuel it needs to run good. To think clearer and faster, eat a well breakfast.
